

Mission Statement

At Birtley House School we cater for pupils who have additional needs, providing specialist support, nurturing and excellent pastoral care.

We provide a multi-sensory curriculum appropriate to our pupils' educational development and needs as well as individual learning programmes including occupational therapy, speech and language therapy, play therapy and music therapy.

We actively promote the fundamental British values of democracy, laws, individual liberty, mutual respect and tolerance of those with different faiths and beliefs. We aim to enable our pupils to acquire an appreciation and respect for their own and other cultures.

We aim to develop in each child a greater awareness of themselves, their community and the world in which they live by reference to their spiritual, social, cultural and moral development.

We aim to instil in each child a sense of mutual respect, to provide equality of opportunity and foster a sense of belonging to a happy, caring school where all are respected and valued. We offer a wide range of extra-curricular activities and opportunities.

We will work in partnership with parents encouraging a positive exchange of information and will strive to improve the quality of our service through regular staff training and review of policies.

We know that parents, healthcare professionals and other stakeholders share our aims and will support us in all our endeavours.
